1 General

This document describes the installation procedure for the Mechanical repair package.

The Mechanical repair package consists of a Computer and Interface Cables. A label printer can be installed to be able to print new labels (optional). A service card is required for Label Make II.

2 Hardware

All hardware must be approved by Sony Ericsson and is documented in the Equipment List.

2.1 Test Setup

The Test setup is to perform SW loading and manual test according to Test Instruction. All necessary hardware for this test set up is documented in the Mechanical Equipment list.

2.2 Computer

IBM compatible computer is required. The computer should include at least two USB-ports. Refer to Equipment List for minimum requirements.

2.3 Sony Ericsson Programming Interface – SEPI

The USB programming interface is delivered with the necessary software and instruction for installation. The USB programming interface (SEPI) should be connected to an USB-port on the computer.

The SEPI is required when upgrading the phone.

2.4 Sony Ericsson Programming Interface (SEPI) A1 Cable

The cable is the interface between the USB programming interface (SEPI) and the phone.

NOTE! The SEPI A1 cable must be connected with a CST-60 Standard Charger

2.5 Label Printer (optional)

A Zebra printer model 90xi, 90xiii or 4000 deluxe shall be used. Connect the printer with a standard RS 232 serial printer cable [refer to the Zebra printer manual] to the serial port on the computer. Read the Zebra installation manual for more information about the installation.

2.6 Service Card Reader/Service Card (optional)

The Service Card Reader is delivered with the necessary software and instructions for installation. The Service Card Reader should be connected to an USB-port on the computer.

The Service Card Reader/Service Card is required for Label Make II

3 Software

3.1 EMMA III

EMMA III contains software upgrades and tools requiring for servicing this phone. Emma III is accessible through the CSPN. Installation and user manuals are available at the EMMA III start page.

3.2 Labelmake II software (optional)

LabelMake II is an application installed through Java Web Start.

Access the Labelmake software from CSPN Web page.

You will find LabelMake II in the dropdown menu on the CSPN web page.

<http://cspn.extranet.sonyericsson.com>

Press "START LabelMake II "button and you will be directed to the LABELMAKE II client page.

Product labels are downloaded on-line from a remote server database.
