## 1.2 Software description

You will find the software version if you press (>\*<<\*<\*) then press, Service info and then the Software Information menu.

You’ll find the CDA (The customer’s parameters) and Language pack under the header “Customization:”

The software version and language group is controlled by the CDA and by the product’s TAC so you will only see the software applicable to the particular DPY in EMMA III.

## 1.3 SI / Revision description

The SI ref. is the original document; if you search on the first four digits in SI ref. you'll find your version of it on CSPN.

SI	Date	Header	Label Identifier	Mandatory Action	Repair rev out

## 2 Additional Information

**This product contains keys for DRM protection which are locked to the specific PCB.**

**All units contain the Sony Ericsson keys.**

**Vodafone have their own key which means that they must be handled in a separate flow and you can not customise units from other operators to below defined Vodafone DPY with VF key (CMLA).**

**The DPY/Z for this product only contains Latin keypad from factory but they contain all keys!**

(You can create any DPY in customise with DPY/Z from production (and from the DPY with VF key (CMLA)) but you might need to change upper keypad / lower Keypads / co-brand label to be able to create the DPY)
